

 **Genpak**[®] has always thought
Flexible
outside of the box but then . . .

We thought outside of the bag !

**Introducing
Die Cut Window Rollstock**

Just the facts . . .

Fact 1: Less inventory space required

- **20%** less storage space.

Fact 2: Longer product shelf life

- provides **better barrier** & can be flushable for extended shelf life.

Fact 3: Infestation eliminated

- Insects **cannot** enter the bag because it is heat sealed.

Fact 4: Reduced labor cost

- The number of manual packers will be **reduced**

Fact 5: Increased output/man hours

- By automating the packaging, there will be an **increase** in the number of packages/hour produced

Fact 6: Low cost machining changeover

- Existing form and fill equipment **can be modified** to use Die Cut Window Rollstock
